

## BECOME A MENTOR

Share your time and talent with undergraduate students through Hokie Mentorship Connect. Create meaningful, long-term connections between multiple generations of Hokies through the online platform. There are three unique ways to participate.

**Structured Mentorship:** A six-month commitment where you work with a student on the completion of specific career goals. The goals help students explore careers and gain professional development.

**Flash Mentorship:** Network and share career advice with students with no set time limit.

**Discussion Board Groups:** Ask questions, view comments, and engage with students and other alums through discussion boards with affiliations or career related interests.
